

SEPA PROXY LOOKUP (SPL) SCHEME STATUS UPDATE

EFIP Meeting - Brussels

25/11/2019

SPL scheme: Key achievements (to date)

1

July 2018

The EPC becomes the SPL scheme owner and manager

2

December 2018

First release of the SPL scheme rulebook and SPL API specifications (based on the Berlin Group's Mobile P2P Interoperability Framework)

3

February 2019

The SPL service goes live (with equensWorldline as "preferred service provider")

4

August 2019

End of three-month public consultation on change requests for 2020 version of the SPL Rulebook

5

November 2019

EPC Board approval of i) change proposals for the 2020 version of the SPL rulebook and ii) the Risk Management Annex

Current status

- To date there are **no SPL scheme participants as yet** in spite of **continued interest** in the market, but the EPC expects that the attractiveness of the SPL scheme will further increase following the **integration of anticipated enhancements** in the next version of the SPL scheme rulebook.
- **SCT Inst:**
 - **Adherence is already at 51% level.**
 - **Volumes are growing very fast.**
 - The EPC is taking necessary actions to ensure that the SCT Int scheme **meets the criteria** of the **SEPA Regulation by November 2020.**

Planned developments

- The **next version** (v2.0) of the SPL scheme rulebook will be published in **March 2020 (effective date of 1 June 2020)** and will include further **enhancements** such as the :
 - Introduction of the **email address** as an additional (optional) proxy.
 - Possibility for an SPL scheme participant in its role of RRP to **charge a fee** in exchange of services provided and received by the IRP.
- Further **active promotion** of the SPL scheme
- In **2020** the EPC will determine whether and when a **new change management cycle** will be initiated in order to further develop the SPL scheme in line with **evolving market requirements**.
- As part of the next cycle, the EPC will in particular investigate **additional end-to-end data security/integrity features**.

Key facts about intra-EU mobility (source: EC)

– There is a market potential

■ Erasmus+ Programme

- Over 300,000 students enrolled on a yearly basis.
- 51% of students coming from Germany, France, Italy or Spain.
- In total about 800,000 people (students, trainers, ...) involved in the programme and (temporarily) moving abroad.

■ Labour mobility

- About 17 million “movers” (including dependents).
- 74% of “movers” located in Germany, UK, Italy, France or Spain and mainly coming from Romania, Poland, Portugal, Italy or Bulgaria.
- In addition 1.4 million “cross-border workers” (mainly coming from France, Germany or Poland).

■ Tourism/travel

- Approximately 260 million trips (with at least one overnight stay) on a yearly basis.
- About 58% of nights spent abroad in Spain, UK, Italy or France.

■ An infographic on intra-EU mobility has been published on the EPC website.

- It was broadly communicated.
- The figures will be updated on an annual basis.
